Attachment to Notice of Allowability

1. The listing of claims filed 5/18/2009 is denied entry because all claims are indicated as "Previously Presented" or "Original," and no markings have been made, and therefore the listing is not an amendment, but merely a duplicate of the previously filed claim set. Applicants are requested to refrain from filing such duplicate papers, as they accomplish nothing and serve to complicate the record.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The reaction of nitrile rubber with a metathesis catalyst for the purpose of reducing the molecular weight is known in the art (see US 2003/0027958). Also known is the compound of formula 1 for use in alkene metathesis reactions (see Castarlenas et al., *Angew. Chem. Int. Ed.* 2003). However, no suggestion can be found to use the specific compounds required in the claims for the reaction with nitrile rubber. Furthermore, in view of both the broad array of possible metathesis reactions in which the compound of Castarlenas could conceivably be tried, and the unpredictability of the

catalytic art, the use of such specific compounds in nitrile rubber reactions cannot be considered to be obvious.
